Solutions that make a difference

Rio Tinto Minerals combines the strength of two industrial minerals leaders – Borax and Luzenac – to create better solutions for customers, and the same great products:

Firebrake ZB – flame retardants for halogen-containing and halogen-free polymers

Luzenac talcs – functional fillers and flame retardants.

Minerals that make a difference

P.P.E Pittsfield Plastics Engineering, Inc.
& Precision-Spools, Inc.

Visit us at IWCS Booth 136

Focused on Plastic Spools and Reels

Our in-house mold making allows...

- for quick response regarding new product offerings
- mold modifications to offer desired features
- mold repairs, enabling short and on-time delivery

Offering the most complete line of re-engineered plastic reels to meet or surpass the industry's requirements for high-performance winding.

Also offered is a wide range of standard and customized Utility Spools for the exacting demands of the industry for insulated wire, cables and filaments.

ISO 9002:94 Accredited

PO Box 1246, Pittsfield, MA 01202 USA
